(c)

The image displays a highly detailed fractal pattern constructed from the characters 'A' and 'V'. The pattern is organized into a grid where each cell contains either an 'A' or a 'V'. The overall shape is a large, irregular, and self-similar structure, characteristic of a fractal. The pattern is composed of many smaller, repeating units, creating a complex, textured appearance. The letters are arranged in a way that suggests a recursive or iterative process, with the pattern becoming increasingly intricate as it is viewed at higher magnifications.
